Profile

Profile

BSc Information Technology graduate currently pursuing a BSc Honours in Computer Science at the University of Pretoria, with expected completion in 2027. Brings nearly three years of experience as a Junior Developer and Junior Technician at Infinite Access, with exposure to software development, technical engineering, and IT support. Technical skills include Python, Java, C++, C#, SQL, object-oriented programming, API development, software testing, and relational database technologies. Interested in building reliable business applications, working with data and integrations, and solving practical technical problems through structured, security-conscious development.

Education

02/2026 – Present **Bsc Honours in Computer Science,** *University of Pretoria*
Focus: Cybersecurity, Digital Forensics, Software Engineering, NLP, Data Mining

02/2021 – 12/2025 **Bsc in Information Technology,** *North-West University*
Specialised in Data Structure, Software Engineering, AI, Cybersecurity

Professional Experience

2023 – 2025 **Junior Developer, and Junior Technician,** *Infinite Access*

- Supported software development and technical engineering tasks.
- Troubleshot hardware and software issues, helping identify and resolve technical problems.
- Performed hardware and software maintenance, installation and technical support.
- Applied programming and problem-solving skills to technical tasks and system issues.

Interests

- Software Engineering
- Artificial Intelligence
- Cloud Computing
- Cybersecurity

Skills

Programming — Python, Java, C++, C#

Databases & data validation — SQL, Oracle Database

Software Development — Object-Oriented Programming (OOP), Data Structures & Algorithms, API Development, Software Testing

Cybersecurity & Forensics — Secure Coding Principles, Basic Digital Forensics, Threat Awareness

Testing & troubleshooting — Software testing, debugging, hardware/software troubleshooting

Frameworks — ASP.NET, .NET Framework

Development tools — Git, GitHub, Postman, Visual Studio, IntelliJ

AI & Data — Machine Learning Fundamentals, Natural Language Processing, Data Mining
